Rean

- **Vision Statement**

Rean, a joint for a juniors and senior to widen their connection and seek help from students from similar major. By letting seniors share their knowlegde, archives of their previous work, and letting underclassmen a space to request for reliable and active help, wwe hope to bring everything and everyone together to widen their network and make it easier for juniors to navigate their way into the field.

- **Stakeholders**

Name	Role	Responsible
Watt Chansophavy	Developer	UI designs
Watt Chansophavy		Prototype
Watt Chansophavy		front end developer
Watt Chansophavy		next js & tailwind coordinator
